Dear Mrs. Hughes

I am writing this letter to let you know that I am apologizing for what I did. I am truly sorry I could imagine the pain and trauma I have caused in your life. You have every reason to have negative feelings towards me and I don't want to see me incarcerated. I am not the type of person that does stuff like that. I am a very likable and unique person with a good heart. I was at a down point in my life when I made the mistake of messing up but that is still my excuse. I have made myself look like something I am not. I am not disappointed in myself and embarrassed. While I was incarcerated I thought about what I did every day and that is something I have to live with for the rest of my life. I have suffered a lot while I was in jail and I changed a lot. I know you don't want to even hear from me but I hope you can take me into consideration and hopefully one day you can find it in your heart to forgive

Recycle or Compost

*All paper can be composted, but only clean paper can be recycled
